MY CONTRACT

As I go through the CareerHack Program, I hope to learn more about Data analysis and Machine Learning.

Some challenges I may face are 1-find the time to do all labs; 2-do the necessary to attend all clases. 3- do the necessary to understand all topics dicted during de lessons.

To deal with these challenges I plan to work hard and the necessary to accomplish each goal.

During the program, I commit to putting time aside for myself, because I want to achieve my goal of becoming a data analyst.
